Job Description

Job Title: HR System Implementation Lead

Grade: 11 £45,718 to £49,764 (subject to evaluation)

Company: Denbighshire Leisure Ltd

Service Area: Governance & Business Support

Responsible to: Head of Governance

Job Purpose:

To support the Head of Governance in leading organisational change projects, and specifically leading on the implementation of a new HR and Payroll solution for the company.

The post holder will lead on implementation of this new solution, ensuring a system is delivered that streamlines and automates current operations, both from a back-office point of view, and an employee point of view. They will act as the conduit with key project stakeholders – both internal and external to DLL, ensuring the project is delivered on time and to the required specification.

The post holder will have a strong background in project management, with proven experience of delivering successful transformational system projects.

As a key part of the company's Governance & Business Support you will work closely with key project stakeholders to manage and develop the implementation of the new HR and Payroll platform. You will build an understanding of the requirements that the company wants from the new platform, and ensure the platform is configured and developed to achieve these aims.

Principal Accountabilities and Responsibilities

- To support the business through a significant period of change. This will include, but not be limited to, the new HR and Payroll solution, and migration from current providers of these associated platforms.
- To develop and ultimately oversee a detailed project plan for the implementation of a new HR and Payroll solution, identifying key milestones, timelines, and risks as part of the project.
- Implement key processes to ensure accuracy of data, working closely with the current HR and Payroll providers, alongside other key project personnel.
- Oversee data migration from legacy HR, Payroll and people related systems – to ensure a high degree of data accuracy and integrity as part of the project.
- To provide leadership, structure and direction to Project Team members – including members of Senior Management.

- To provide project update reports to key project stakeholders and implement feedback at each stage.
- To provide training and mentorship where required for project management practices.
- To provide training and support to colleagues on new systems and processes arising from the implementation.
- Working closely with Executive Management, People and Finance functions within the company, along with current ICT, HR and Payroll providers, and other business departments to gather system requirements, ensuring the new platform aligns with the company's needs.
- Ensuring automation is at the forefront of the development of the system – and utilising the new system to its fullest, ensuring processes and relevant reporting are developed as part of the project plan.
- Developing comprehensive project plans for the implementation of the new system, defining key milestones, timelines, resources, and risk mitigation strategies.
- Prepare timely and detailed reports on project timelines and milestones on a regular basis as required by the Head of Governance, Executive team and Senior Managers.
- Aligning with the Finance and People teams on data cleansing and data extraction ready for data migration.
- Overseeing data migration from legacy systems into the new platform, ensuring accuracy and data integrity throughout the process.
- Leading and developing staff as part of the project.
- Managing system testing phases, including user acceptance testing (UAT), to ensure the new platform meets business and technical requirements.
- Troubleshooting any issues that arise during testing or post-implementation and working with the system provider to resolve them.
- To develop policies, processes and procedures in line with the development of the system.

From time to time the role may be required to deputise and the Head of Governance, to include but not be limited to:

- To play a leading role in the project management of the company's upcoming business transformation projects, including producing detailed project plans and delivering update reports to key stakeholders.
- Contributing to the overall development and implementation of the Company's governance arrangements, and specifically those that are focused on the new HR and Payroll platform.
- Establish and maintain a high level of credibility and manage strong working relationships with external parties including key external stakeholders and suppliers.
- Any reasonable task requested through the company's Executive Management team.

Supervision/Management of People

- The postholder will supervise four members of the project team as part of the implementation of the project.
- In the absence of the Head of Governance, the post holder will be required to work autonomously at a strategic level, be able to provide updates, advice and challenge to key project stakeholders across a range of areas.
- The post holder will provide clear advice and guidance to the project team on areas of their expertise.
- The post holder will be required to provide training and mentorship where required for project management practices and new processes arising from system implementation.

Qualifications Experience & Knowledge:

- Proven track record in successful HR systems management and project delivery.
- Strong experience in HR systems deployment and process improvement.
- The post holder must have the ability to effectively manage and delivery a project on budget within a set timeframe, to ultimately deliver on the Company's objectives.
- Demonstrate a high degree of communication and interpersonal skills, as the ability to build relationships with key project stakeholders, and make appropriate recommendations on key business priorities, is essential.
- The post holder must have the confidence to communicate and challenge stakeholders at all levels within the organisation including presenting information via an appropriate method.
- Experience of working with and developing systems to support day-to-day business management.
- Ability to use and apply relevant ICT commensurate with the nature and demands of the post.

Special Working Conditions

- The post holder must have the ability to travel across Denbighshire for which an allowance is payable but subject to review.
- Although this post is 37 hours per week, a flexible approach to core working hours is required. The post holder will be expected to work the hours the job demands.
- The post holder will be required to work to compressed timescales and within defined budgets.
- The post holder will be required to complete tasks autonomously and have a proven ability to work off their own initiative.
- The ability to prioritise work, deal with conflicting priorities and meet deadlines is essential to this post.
